## Terrace Bar

As a destination for your dream holiday home in paradise, Barbados is a wonderful choice. Spending time with family and friends in such a beautiful, tropical environment is the very best way to take the stress out of life, relax and let your energy flow freely.

For the terrace bar at this family home we combined distinctly tropical elements; faux cane furniture and aluminium bar stools provide comfortable seating whilst bespoke upholstery depicting ocean life gives a feeling of peace and calm. The contemporary, curved bar is topped with durable black granite, further emphasising the clean, simple lines.

With over 15 years experience designing homes in the Caribbean, we know the subtle finishing touches that take a room from breathtaking to perfect. From hardy plants that can withstand the tropical weather to hurricane lanterns essential for creating evening ambience, we think of every detail so that our clients need think of nothing but relaxing and enjoying their Caribbean home.
